

Daedalus, Daedalus, what a creative man
Though his envy was greater than most other man
His envy led him to kill another man
Forced was he to go to another land
He set sail for crete and joined King Minos Clan
This, This was Dadalus' plan

The King Minos was excited when Daedalus land
The king was eager to enter him into his plan
To build a Laberent, his plan began
The Labyrinth would take the lives of many man
In the walls the Minotaur ran
This, This was King Minos plan

King Minos plan did not have much span
The Minotar had ate many man
King Minos ran into a jam
He did not have anything left on his plan
Looking for Daedalus, he sent his warriors to scan
Left for the Minotar, which was never outran

King Minos did not have a good plan
Daedalus was smarter than most other man
With his son he made a great plan
When they had their plan they set out and ran
They kept thinking they can, they can
Finally it was done, they knew they can

To the shore they ran
To make a brand new plan
For feather he sent Icarus to scan
With plenty he went back and they began
Daedalus told Icarus the wonder plan
Icarus did not have a long attention span

They put on the wings and ran
To fly, what a large feat for man
Flying higher to the sun Icarus began
Not listening to his father's wonderful plan
Icarus got into a bit of a jam
This completed part of king Minos plan
